

1932

ASA BULLETIN

Vol. 3 No. 3 Part

American Standards Association

Index to Volume 2 of the ASA BULLETIN January-December 1931

Index to ASA Bulletin for 1931

The following index covers issues 57-68, January through December, 1931, of the ASA BULLETIN. A limited number of extra copies of most of these issues are available through the ASA office.

A

- Abbreviations and symbols (Z10)
 heat and thermodynamics (Z10c-1931) standard published.—59:p31, Mar. '31.
 mechanics, structural engineering, and testing materials (Z10a), submitted for approval.—67:p40, Nov. '31.
- Aeronautics, S.A.E. Handbook of standards and recommended practices, 1931 edition.—61:p15, May '31.
- Agnew, P. G.—Technical standards for consumer goods, a "five-year plan?"—63:p15, July '31.
- Ainsworth, Cyril.—Has development of safety codes helped accident prevention in industry?—66:p3, Oct. '31.
- Air cylinders and adapters, rotating (B5g1), draft published.—59:p32, Mar. '31.
- Airplanes—see Aeronautics.
- Allowances and tolerances for cylindrical parts and limit gages (B4), reorganization of committee.—57:p26, Jan. '31.
- American Electric Railway Association to revise 600-volt dc overhead trolley construction (C15-1923).—67:p40, Nov. '31.
- American Foundrymen's Association 1931 convention.—60:p16, Apr. '31.
- American Home Economics Association urges use of standards by retailers.—65:p22, Sept. '31.
- American Institute of Electrical Engineers
Electrical Installations on Shipboard, 1930 edition.—64:p14, Aug. '31.
 six standards (ASA C48, C53, C54, C55, C56, C57), submitted for ASA consideration.—65:p21, Sept. '31.
- American Institute of Mining and Metallurgical Engineers, A. B. Parsons becomes secretary.—68:p25, Dec. '31.
- American Mining Congress appoints Reamy Joyce chairman of mine timbering committee (M22).—63:p28, July '31.
- American Railway Association price list of publications.—61:p18, May '31.
- American Railway Engineering Association
Manual of specifications reviewed.—64:p30, Aug. '31.
 proposals for railway bridge standards withdrawn (A3a, A25).—65:p22, Sept. '31.
- American Society of Mechanical Engineers
 power test code on liquid fuels published.—57:p13, Jan. '31.
 report on Diesel fuel oil published (K19).—68:p21, Dec. '31.
- American Society of Safety Engineers studies low voltage hazards.—58:p13, Feb. '31.
- American Society for Testing Materials
Book of Standards, 1930, issued.—58:p19, Feb. '31.
Book of Tentative Standards, 1931 edition, published.—68:p16, Dec. '31.
 committee reports (corrosion, petroleum, textiles, concrete) published.—64:p18, Aug. '31.
 electrical insulating material report published.—67:p40, Nov. '31.
- iron
 corrosion studied.—66:p32, Oct. '31.
 wrought.—66:p9, Oct. '31.
- iron and steel, zinc coating of.—68:p31, Dec. '31.
- lime and gypsum survey.—66:p9, Oct. '31.
- petroleum products and lubricants, report.—68:p20, Dec. '31.
- price list of standards, 1931, published.—65:p16, Sept. '31.
- Proceedings*, 1930 edition available.—58:p20, Feb. '31.
- supplement, 1931, to 1930 *Book of Standards*, issued.—68:p39, Dec. '31.
- technical papers presented at meeting in June, 1931, available.—66:p14, Oct. '31.
- zinc coating of iron and steel research.—68:p31, Dec. '31.
- American Standards Association
 administration
 annual meeting Dec. 9, 1931.—67:p38, Nov. '31.
 board of directors for 1931-1933.—57:p12, Jan. '31.
 by-law amendments approved.—61:p17, May '31.
 California and Massachusetts representatives appointed.—60:p13, Apr. '31.
 certification and labeling, board of directors appoints committee.—60:p39, Apr. '31.
 committee on procedure
 appointed.—58:p13, Feb. '31.
 outlines basic principles.—60:p31, Apr. '31.
 scope defined.—62:p32, June '31.
- constitution
 amendments ratified.—64:p8, Aug. '31.
 amendments submitted to members.—61:p18, May '31.
- Electrical Standards Committee
 approved by 11 member organizations.—64:p9, Aug. '31.
 becomes international in scope.—66:p20, Oct. '31.
 holds organization meeting.—67:p29, Nov. '31.
 representatives appointed.—66:p20, Oct. '31.
- finance, procedure, ways and means committee members appointed.—59:p21, Mar. '31.
- income sources classified.—60:p16, Apr. '31.
- Iowa representative appointed.—61:p17, May '31.
- Los Angeles, Cal., representative appointed.—67:p31, Nov. '31.
- Massachusetts and California representatives appointed.—60:p13, Apr. '31.
- Safety Code Correlating Committee elects new officers.—63:p26, July '31.
- Skinner, C. E., appointed to ISA council.—61:p18, May '31.
- staff
 Ainsworth, Cyril, appointed assistant secretary.—60:p3, Apr. '31.
 Lawrence, H. M., and Benham, S. W., appointed mining engineer and assistant engineer, respectively.—61:p19, May '31.
 personnel (list).—64:p18, Aug. '31.
- Standards Council
 meeting to be held Sept. 10, '31.—62:p32, June '31.
 members appointed to represent A.R.A.—63:p28, July '31.
 new members appointed.—57:p11, Jan. '31.
 nominating committee for 1932.—62:p22, June '31.
 paper on Bell System standardization presented at meeting of Sept. 10, 1931.—65:p16, Sept. '31.
 personnel changes noted.—66:p21, Oct. '31.
 Wehmhoff, B. L., appointed to Council.—58:p11, Feb. '31.
- projects reviewed
 civil engineering.—59:p25, Mar. '31. (Correction.—60:p32, Apr. '31.)
 mechanical engineering.—58:p21, Feb. '31.
 miscellaneous, chemical, textile, and wood.—61:p21, May '31.
 safety codes.—67:p32, Nov. '31.
 transportation, ferrous metallurgy, and non-ferrous metallurgy.—60:p25, Apr. '31.

- Year Book for 1931 published.—61:p12, May '31.
- American Telephone and Telegraph Company, Bell System standardization. H. S. Osborne.—65:p3, Sept. '31. (Abstract of discussion.—66:p26, Oct. '31.) (Correction in discussion.—67:p31, Nov. '31.)
- Army specifications, electrical equipment.—61:p12, May '31.
- Aronson, Jacob—Legal issues involved in buying and selling under statutory commodity standards.—64:p22, Aug. '31.
- ASA BULLETIN, index to issues 50-56, June-Dec. 1930.—60:p17, Apr. '31.
- Association of Edison Illuminating Companies, specifications for impregnated paper-insulated, lead-covered cable available.—58:p18, Feb. '31.
- Atterbury, Grosvenor, report on home building standardization published.—59:p3, Mar. '31.
- Australia, building materials and equipment standard issued.—64:p32, Aug. '31.
- Austria
hospital equipment draft standards available.—61:p6, May '31.
national standardizing body procedure and work.—64:p12, Aug. '31.
savings from standardization.—64:p8, Aug. '31.
Siemens-Schuckert Works standardization program. F. J. Schlink.—57:p18, Jan. '31.
- Automobiles
planned standardization program, reference to.—58:p18, Feb. '31.
standardization of fenders brings benefits.—59:p15, Mar. '31.
standards and recommended practices, S.A.E. Handbook, 1931, published.—61:p15, May '31.
- Aviation—see Aeronautics.
- B**
- Ball bearings, navy tests being conducted.—59:p36, Mar. '31.
- Batteries, dry cells (C18-1930), standard available.—57:p40, Jan. '31.
- Batteries, storage, navy revises chapter 28 of Manual of Engineering.—59:p36, Mar. '31.
- Bearce, H. W.—Unilateral and bilateral tolerances for machined parts and gages.—68:p3, Dec. '31.
- Bell System—see American Telephone and Telegraph Company.
- Bell Telephone Laboratories, wear test to determine durability of finishes.—62:p15, June, '31.
- Belting, leather
committee work authorized (B42).—57:p25, Jan. '31.
committee work organized (B42).—62:p27, June '31.
German specifications explained.—59:p24, Mar. '31.
- Benham, S. W., appointed as assistant engineer on ASA staff.—61:p19, May '31.
- Blankets, wool and part wool, classification (L6), standard to be submitted to ASA.—68:p16, Dec. '31.
- Bolts and nuts
standardization of heights brings savings in Austria.—64:p8, Aug. '31.
standards (B18) widely used.—62:p31, June '31.
track (B18d-1930), standard available.—57:p13, Jan. '31.
Same.—59:p30, Mar. '31.
wrench head (B18b-1927), changes made outside of ASA procedure.—64:p29, Aug. '31.
- Bowers, Glenn A., and Powell, Leona.—Research manual for the study of business conferences, a review.—68:p23, Dec. '31.
- Brakes and brake testing (D4-1927), committee reorganized.—63:p20, July '31.
- Brand names, new purchase regulations in Federal specifications.—60:p10, Apr. '31.
- Bridges, movable (A25), and steel railway (A3a), standardization projects withdrawn by A.R.E.A.—65:p22, Sept. '31.
- Brushes and brush shunts, carbon, simplified practice recommendation, revised.—66:p15, Oct. '31.
- Budnevich, D. G.—Russian program for standardization and elimination of waste.—62:p7, June '31.
- Building
Construction of Residences in Germany (DIN Taschenbuch 18).—68:p10, Dec. '31.
dwellings, standardization reduces cost.—59:p3, Mar. '31.
managers use specifications for supply and maintenance materials.—58:p32, Feb. '31.
materials and equipment standard published by Australian body.—64:p32, Aug. '31.
recommended minimum requirements for fire resistance published.—64:p30, Aug. '31.
- Building code
National Board of Fire Underwriters issues 1931 edition of building code.—64:p11, Aug. '31.
- Pacific Coast Building Officials' Conference
development and enforcement of code stressed at meeting.—65:p32, Sept. '31.
recommends American Standard safety code for mechanical refrigeration (B9-1930), for adoption.—61:p32, May '31.
- Bureau of Standards, National, Yearbook, 1931, published.—59:p21, Mar. '31. Same.—60:p14, Apr. '31.
- Burke, C. W.—Fatalities due to falls show need for walkway safety code.—68:p6, Dec. '31.
- Burns, R.—A wear test to determine mechanical durability of finishes.—62:p15, June '31.
- Burrows, R. A.—Use of specifications as the basis of contracts for the sale of coal.—59:p16, Mar. '31.
- C**
- California
gasoline standards defined.—68:p32, Dec. '31.
screw threads for fire hose couplings (B26-1925) made compulsory by law.—62:p20, June '31.
- Canada, 1930 Yearbook published by C.E.S.A.—62:p22, June '31.
- Candy manufacturers use standard colors.—61:p15, May '31.
- Capacitors (C55), standards submitted by A.I.E.E.—65:p21, Sept. '31.
- Certification
National Standards Council, Inc., undertakes certification of consumer goods.—57:p14, Jan. '31.
special committee members appointed.—60:p39, Apr. '31.
Underwriters' Laboratories establish inspection plan.—65:p32, Sept. '31.
- Chain, welded, simplified lines to be identified by industry.—65:p31, Sept. '31.
- Chain and independent stores, comparison of prices.—57:p40, Jan. '31.
- Chaney, Dr. L. W., retirement from the Bureau of Labor Statistics.—62:p21, June '31.
- Chemical projects under ASA procedure, review.—61:p21, May '31.
- Civil engineering projects under ASA procedure, review.—59:p25, Mar. '31. (Correction.—60:p32, Apr. '31.)
- Cleaning materials, purchasing, U. S. Navy procedure.—59:p11, Mar. '31.
- Clothing, lack of standardization in dress sizes.—64:p32, Aug. '31.
- Coal
adoption of standards for bituminous coal urged.—66:p13, Oct. '31.
British standard (420-1931) on sampling and analysis available.—68:p15, Dec. '31.
- classification
report submitted on test methods (M20).—62:p23, June '31.
sectional committee (M20) has new members.—65:p31, Sept. '31. Same.—66:p18, Oct. '31.
- purchasing
classification to simplify.—66:p11, Oct. '31.
specifications as basis for contracts for sale. R. A. Burrows and N. Simpkin.—59:p16, Mar. '31.
scope of proposed ASA project (M26) on clean coal.—62:p27, June '31.

standardization of clean coal requested by A.I.M.M.E.—61:p30, May '31.
 standardization program. J. M. Hadley.—60:p4, Apr. '31.
 Coal mines
 cars (M21), scope of work approved by Standards Council.—60:p38, Apr. '31.
 drainage of (M6-1931), revision approved.—66:p20, Oct. '31.
 tracks, signals, and switches (M7a-1927), revision undertaken.—66:p22, Oct. '31.
 transportation, safety code (M15), standard approved.—63:p26, July '31.
 Coal pneumatic cleaning plants
 safety code (Z12f-1930) approved.—57:p29, Jan. '31.
 safety code (Z12f-1930) published.—60:p30, Apr. '31.
 Coles, Jessie V.—The use of standardization in buying by consumers.—68:p22, Dec. '31.
 Color
 candy manufacturers use standard.—61:p15, May '31.
 Inter-Society Council holds first meeting.—68:p22, Dec. '31.
 Optical Society of America holds meeting to deal with standardization of.—58:p9, Feb. '31.
 special conference recommends formation, of inter-society council.—60:p13, Apr. '31.
 Colorimetry, bibliography issued by Bureau of Standards.—60:p16, Apr. '31.
 Committee and conference methods studied by research group.—62:p19, June '31.
 Commodity standards, legal issues involved in buying and selling. Jacob Aronson.—64:p22, Aug. '31.
 Company standardization
 advantages presented by Thomas R. Jones.—68:p33, Dec. '31. (Discussion by John Gaillard.—68:p37, Dec. '31.) (Discussion by James E. Gleason.—68:p39, Dec. '31.)
 Bell system standardization. H. S. Osborne.—65:p3, Sept. '31. (Abstract of discussion.—66:p26, Oct. '31.) (Correction in discussion.—67:p31, Nov. '31.)
 Ingersoll-Rand Company, organization of standardization work. Arthur Huntress.—66:p23, Oct. '31.
 Krauss Works, Germany, standardization program. F. J. Schlink.—62:p30, June '31.
 New York Edison System, development of standardization plan. G. L. Knight.—63:p29, July '31.
 Pullman Company finds standardization an aid to progress. P. Parke.—65:p29, Sept. '31.
 Skoda Works, Czechoslovakia, improves production through use of standards. F. J. Schlink.—61:p33, May '31.
 Stone and Webster Service Corporation finds savings in standardization of printed forms. Alan D. Duff.—59:p33, Mar. '31.
 Wanderer Machine Tool Works at Siegmar, Germany, uses national (DIN) standards. F. J. Schlink.—60:p9, Apr. '31.
 Conduits, Underwriters' standard revised.—61:p14, May '31.
 Conference and committee methods studied by research group.—62:p19, June '31.
 Conferences, business, research manual prepared.—68:p23, Dec. '31.
 Construction industry, proposed safety code (A10). W. R. Smith.—65:p23, Sept. '31.
 Consumer goods
 Agnew, P. G.—Technical standards for consumer goods, a "five year plan?"—63:p15, July '31.
 certification undertaken by National Standards Council, Inc.—57:p14, Jan. '31.
 Consumers' Research, Inc., F. J. Schlink becomes full-time technical director.—59:p9, Mar. '31.
 Control apparatus, electric railway (C48), revision submitted to ASA.—65:p22, Sept. '31.
 Conveying equipment, standardization a necessity.—66:p6, Oct. '31.
 Czechoslovakia
 school apparatus being standardized.—66:p32, Oct. '31.

Skoda Works improve production through use of standards.—61:p33, May '31.
 Cylinders and adapters, rotating, air (B5g1), draft published.—59:p32, Mar. '31.

D

Deale, R. C.—Establishment of standards for machine finishes.—67:p22, Nov. '31.
 Dickinson, J. A.—The development of the American standard safety code for elevators.—64:p3, Aug. '31.
 Die head chasers (S.P. R51-29), reaffirmed for another year.—66:p10, Oct. '31.
 Division of building and housing
 Care and Repair of the House, pamphlet by V. Phelan available.—64:p11, Aug. '31.
 Fire Resistance Requirements in Buildings, available.—64:p30, Aug. '31.
 Division of simplified practice
 abrasive grain sizes, recommendation on.—68:p16, Dec. '31.
 Stevenson, A. A., appointed ASA representative on planning committee.—57:p25, Jan. '31.
 Drawings
 files for.—57:p17, Jan. '31.
 necessity for standardization.—57:p17, Jan. '31.
 Dress sizes, lack of standardization causes difficulty.—64:p32, Aug. '31.
 Dry cells and batteries (C18-1930), standard available.—57:p40, Jan. '31.
 Dry cleaning industry needs safety regulations.—60:p39, Apr. '31.
 Duff, A. D.—Benefits from standardization of printed forms.—59:p33, Mar. '31.
 Dumbwaiters
 safety code (A17-1931) approved.—64:p31, Aug. '31.
 safety code (A17-1931), development of.—64:p3, Aug. '31.
 Dust explosions, prevention of
 in starch factories (Z12c-1931), approved.—66:p19, Oct. '31.
 in terminal grain elevators (Z12e-1931), approved.—66:p19, Oct. '31.
 in wood flour manufacturing establishments (Z12g-1931), approved.—66:p19, Oct. '31.
 Dust ignition in spice grinding plants (Z12h-1931), safety code approved.—66:p19, Oct. '31.
 Dwellings
 building costs reduced by use of standardized units.—59:p3, Mar. '31.
 care and repair of house, publication on, issued by Division of Building and Housing.—64:p11, Aug. '31.

E

Eaton, Lucien.—The development of standards for use in metal mines.—60:p7, Apr. '31.
 Eidman, Frank L.—*Economic Control of Engineering and Manufacturing*, review.—60:p15, Apr. '31.
 Electrical accessories, standardization of, needed in Great Britain.—62:p6, June '31.
 Electrical control equipment, definitions for (C42).—60:p33, Apr. '31.
 Electrical definitions (C42), committee reports progress of work.—60:p33, Apr. '31. Same.—63:p22, July '31.
 Electrical equipment used in U. S. army, specifications for.—61:p12, May '31.
 Electrical industry, importance of standardization.—66:p31, Oct. '31.
 Electrical insulation
 insulating materials, report by A.S.T.M.—67:p40, Nov. '31.
 insulators, power line
 consolidation of projects (C20) on line insulators with (C29) power line insulators.—58:p28, Feb. '31.
 sectional committee personnel approved (C29).—67:p39, Nov. '31.

- Standards Council approves scope (C29).—60:p30, Apr. '31.
- Electrical lamps, British specifications increase light output.—68:p22, Dec. '31.
- Electrical lines, overhead, 600 volt direct current trolley construction (C15-1923), revision undertaken.—67:p40, Nov. '31.
- Electrical machinery
rotating (C50), sectional committee issues draft.—65:p22, Sept. '31.
synchronous converters (C21) consolidated with rotating electrical machinery project (C50).—57:p25, Jan. '31.
- Electrical railway equipment, overhead, packaging of, Division of Simplified Practice recommendation to be printed.—65:p22, Sept. '31.
- Electrical stove to be sold by British manufacturers.—58:p9, Feb. '31.
- Electrical welding apparatus
arc welding (C31) project, scope, and committee approved.—60:p32, Apr. '31.
resistance welding (C32) project, scope, and committee approved.—60:p32, Apr. '31.
- Elevators
safety code (A17-1931) approved.—64:p31, Aug. '31.
safety code (A17-1931), development of.—64:p3, Aug. '31.
- Employment stabilized by standardization.—61:p13, May '31.
- Engineering, structural, symbols for (Z10a), submitted to ASA.—67:p40, Nov. '31.
- Engineering and purchasing discussed by F. M. Harris.—62:p22, June '31.
- English, F. S.—Some problems of standardization in the printing industry.—58:p10, Feb. '31.
- Escalators
safety code (A17-1931) approved.—64:p31, Aug. '31.
safety code (A17-1931), development of.—64:p3, Aug. '31.
- ### F
- Farmers use standardization to improve conditions in Ireland.—61:p6, May '31.
- Farrer, H. E.—Résumé of progress in the development of standard electrical definitions (C42).—60:p33, Apr. '31.
- Federal specifications, lists of.—58:p32, Feb. '31. Same.—60:p10, Apr. '31. Same.—61:p16, May '31. Same.—62:p12, June '31. Same.—68:p39, Dec. '31.
- Federal Trade Commission approves simplification and standardization work of trade associations.—61:p6, May '31.
- Ferrous metallurgy—see Metallurgy, ferrous.
- Fiber, red, German specifications for.—61:p19, May '31.
- Fiber stresses, ultimate, in wood poles (O5a-1930), standard incorporated in National Electrical Safety Code (C2-1927).—61:p20, May, '31.
- Finishes, surface
classification of quality of finish of machine surfaces (B46), request for standardization.—67:p3, Nov. '31.
machine finishes, establishment of standards. R. C. Deale.—67:p22, Nov. '31. (Discussion.—67:p28, Nov. '31.)
microscopical examination of cross-section of surfaces. Dr. C. B. Sawyer.—67:p12, Nov. '31.
surface quality standards, proposed method of measuring. R. E. W. Harrison.—67:p4, Nov. '31. (Discussion.—67:p17, Nov. '31.)
wear test to determine mechanical durability.—62:p15, June, '31.
- Fire fighting equipment in metal mines (M17-1930), typographical error in standard.—63:p24, July, '31.
- Fire hose, cotton rubber-lined (L3-1929), revision approved.—60:p30, Apr. '31.
- Fire resistance in buildings, minimum requirements (BH14).—64:p30, Aug. '31.
- Fish, L. B.—Simplification and standardization of manhole frames and covers (A35).—65:p26, Sept. '31.

- Fits
cylindrical, standardization simplifies design.—64:p15, Aug. '31.
international system to be developed under ISA procedure.—63:p3, July, '31.
international unification, Germany's financial support of project.—63:p26, July '31.
- Food
Pennsylvania specifications available through ASA.—66:p32, Oct. '31.
U. S. Navy procedure for inspection and testing.—59:p10, Mar. '31.
- Forbes, Russell.—Use of specifications in purchasing, a review.—68:p11, Dec. '31.
- Foundry equipment
committee organized to undertake project (B45).—62:p28, June '31.
standardization project to be undertaken (B45).—57:p29, Jan. '31.
- Foundry safety code (B8-1922), Standards Council approves personnel of committee preparing revision.—63:p20, July '31.
- Fuels, motor, standardization of knock rating.—66:p15, Oct. '31.

G

- Gages
Bearce, H. W.—Unilateral and bilateral tolerances for machined parts and gages.—68:p3, Dec. '31.
electrolimit, used in quantity production.—65:p28, Sept. '31.
- Gaillard, John
Progress in the field of hospital standardization in Germany.—61:p7, May '31.
Proposal for an international system of fits developed under ISA procedure.—63:p3, July '31.
Review of mechanical engineering projects under ASA procedure.—58:p21, Feb. '31.
Sectional committee will undertake new study of preferred numbers (Z17-1927).—62:p29, June '31.
Standard classification of quality of finish of machine surfaces (B46).—67:p3, Nov. '31.
Standardizing cylindrical fits to simplify design.—64:p15, Aug. '31.
- Gas, inert, safety code for use of, for fire and explosion prevention (Z121-1931), approved.—66:p19, Oct. '31.
- Gasoline
California standards define.—68:p32, Dec. '31.
gum formation in.—68:p21, Dec. '31.
- Gears, new member on sectional committee (B6).—58:p27 Feb. '31.
- Germany
construction of residences (DIN Taschenbuch 18).—68:p10, Dec. '31.
electrical standards available (Vorschriftenbuch, 1931).—64:p13, Aug. '31.
fits, international unification, financial support of project.—63:p26, July '31.
hospital standardization.—61:p7, May '31.
household appliances to be correctly designed.—62:p18, June '31.
Krauss Works use standards.—62:p30, June '31.
leather belting specifications explained.—59:p24, Mar. '31.
paint specifications issued by railroads.—66:p10, Oct. '31.
red fiber in sheets and rolls, specifications for.—61:p19, May '31.
shafting, flexible (DIN VDE 2925), standard available.—68:p18, Dec. '31.
ships, rules for electrical plants aboard (DIN HNA BVE 1).—66:p12, Oct. '31.
standardization and industry, mistaken ideas about.—57:p17, Jan. '31.
varieties reduced, motors, lubricants, air hose.—59:p8, Mar. '31.

Shafting
 flexible, German standard for (DIN VDE 2995).—68:p18,
 Dec. '31.
 transmission, paper published in *A.S.M.E. Transactions*,
 a review.—57:p13, Jan. '31.
 Woodruff keys, keyslots, and cutters (B17f-1930), ap-
 proved by ASA.—57:p27, Jan. '31. Same.—
 59:p8, Mar. '31.
 Sheet metal, standard thicknesses, weights and tolerances
 for, circular 391 published by National Bureau of
 Standards.—66:p10, Oct. '31.
 Shewhart, Dr. W. A.
 reprints of two papers on sampling as a basis of inspection,
 available.—65:p28, Sept. '31.
 Ships
 electrical installations on shipboard, 1930 edition pub-
 lished by A.I.E.E.—64:p14, Aug. '31.
 rules for electrical plants aboard, German handbook
 available.—66:p12, Oct. '31.
 Siemens-Schuckert Works, Vienna, standardization work.
 F. J. Schlink.—57:p18, Jan. '31.
 Sieves
 need for standards. H. M. Lawrence.—63:p25, July '31.
 technical committee (Z23) to prepare standards for.—
 57:p28, Jan. '31. Same.—66:p21, Oct. '31.
 Simmons, R. H.—What the standardization of paper means
 to producers and purchasers.—66:p7, Oct. '31.
 Simpkin, N.—Use of specifications as the basis of contracts
 for the sale of coal.—59:p16, Mar. '31.
 Simplification
 excess varieties must be eliminated.—66:p22, Oct. '31.
 Krauss Works, Germany, applies principles of.—62:p30,
 June '31.
 paint industry sees necessity for.—62:p17, June '31.
 welded chain industry to identify simplified lines.—65:p31,
 Sept. '31.
 Skinner, C. E.—*Standardization*, paper read at World
 Engineering Congress, available.—61:p30, May '31.
 Skoda Works develop standardization program.—61:p33,
 May '31.
 Small, A. R.—1931 edition of National Electrical Code
 reflects progress of industry.—65:p17, Sept. '31.
 Smith, H. M.—Underwriters' standards for conduits and
 panelboards.—61:p14, May '31.
 Smith, W. R.—Development of a standard safety code for
 the construction industry (A10).—65:p23, Sept. '31.
 Soaps, U. S. Navy procedure for purchasing.—59:p11, Mar.
 '31.
 Society of Automotive Engineers, 1931 edition of handbook
 published.—61:p15, May '31.
 Southcombe, J. E.—*Some Contributions to the Theory and
 Practice of Lubrication*.—57:p19, Jan. '31.
 Specifications
 coal sold on contracts based on specifications. R. A.
 Burrows and N. Simpkin.—59:p16, Mar. '31.
 food purchased on specifications by U. S. Navy.—59:p10,
 Mar. '31.
 governmental purchasing on specifications, papers by
 Russell Forbes, reviewed.—68:p11, Dec. '31.
 highway materials specifications urged.—59:p22, Mar. '31.
 inspection necessary when purchasing on specifications.—
 61:p36, May '31.
 National Association of Purchasing Agents discusses use
 of specifications.—68:p9, Dec. '31.
 need for standards and specifications stressed by U. S.
 Chamber of Commerce.—60:p14, Apr. '31.
 paper specifications and tests used by U. S. Navy.—
 61:p3, May '31.
 quality more uniform when specifications are used in
 purchasing.—58:p29, Feb. '31.
 schools in San Joaquin, California, use specifications in
 purchasing.—68:p25, Dec. '31.
 uniform quality assured by use of specifications.—58:p29,
 Feb. '31.
 Speeds of machinery (Z18), questionnaire circulated.—
 61:p31, May '31.

Standardization

Germany, confusing mass-mindedness with conscious
 standardization.—57:p17, Jan. '31.
 in 1868.—64:p11, Aug. '31.
 Skinner, C. E., reads paper at World Engineering Con-
 ference.—61:p30, May '31.
 stabilizes employment.—61:p13, May '31.
 technical progress. F. J. Schlink.—58:p18, Feb. '31.
 Standards Commission of Sweden, change of name.—65:p28,
 Sept. '31.
 State centralized purchasing may be established in Maine.—
 58:p15, Feb. '31.
 Steel
 committee submits annual report (G8).—62:p24, June '31.
 Pullman Company finds specifications valuable.—65:p29,
 Sept. '31.
 research on zinc coating conducted by A.S.T.M.—68:p31,
 Dec. '31.
 wrought-iron and wrought-steel pipe and tubing (B36),
 committee submits annual report.—62:p26, June '31.
 zinc coating (G8c-1930), standard approved by ASA.—
 57:p30, Jan. '31. (Correction.—58:p30, Feb. '31.)
 Surface finishes
 classification of quality of finish of machine surfaces (B46).
 John Gaillard.—67:p3, Nov. '31.
 machine finishes, establishment of standards. R. C.
 Deale.—67:p22, Nov. '31. (Discussion.—67:p28,
 Nov. '31.)
 microscopical examination of cross-section of surfaces.
 Dr. C. B. Sawyer.—67:p12, Nov. '31.
 surface quality standards, proposed method of measuring.
 R. E. W. Harrison.—67:p4, Nov. '31. (Discussion of
 paper.—67:p17, Nov. '31.)
 Sweden, national standardizing body changes name.—
 65:p28, Sept. '31.
 Switzerland, draft thermometer standards available.—
 62:p18, June '31.
 Synchronous converters (C21), project consolidated with
 rotating electrical machinery (C50).—57:p25, Jan. '31.

T

Testing

abrasion tester for textiles.—66:p16, Oct. '31.
 fabrics, standard approved by ASA (L5-1931).—58:p28,
 Feb. '31.
 foods purchased by U. S. Navy are inspected and tested.—
 59:p10, Mar. '31.

Textiles

abrasion resistance measured by new device.—66:p16,
 Oct. '31.
Government Publications Relating to Textiles, 3rd edition
 issued.—68:p32, Dec. '31.
 methods of testing woven textile fabrics (L5-1931),
 standard approved.—58:p28, Feb. '31.
 projects under ASA procedure reviewed.—61:p21, May
 '31.
 standards used in marketing textile products.—58:p17,
 Feb. '31.

Thermodynamics, symbols for heat and, standard approved
 (Z10c-1931).—59:p31, Mar. '31.

Thermometers, industrial

Federal specification revised.—67:p31, Nov. '31.
 Swiss draft standards available.—62:p18, June '31.

Tile, drain

committee (A6-1925) personnel revised.—67:p40, Nov. '31.
 Sanford, G. O., appointed to sectional committee (A6-
 1925).—68:p25, Dec. '31.

Tolerances

Bearce, H. W.—Unilateral and bilateral tolerances for
 machined parts and gages.—68:p3, Dec. '31.
 Bureau of Standards, circular 391, *Standard Thickness,
 Weights, and Tolerances of Sheet Metal*, issued.—
 66:p10, Oct. '31.
 cost study by R. E. W. Harrison.—67:p4, Nov. '31.
 reorganization meeting of technical committee (B4) on

- allowances and tolerances for cylindrical parts and limit gages.—57:p26, Jan. '31.
- Tools, machine (B5)
committee changes announced.—58:p15, Feb. '31.
economy in standardization of.—62:p32, June '31.
- Track bolts and nuts (B18d-1930), standard available.—57:p13, Jan. '31. Same.—59:p30, Mar. '31.
- Track scales, railroad, Letter Circular 295 of Bureau of Standards on testing, issued.—59:p9, Mar. '31.
- Transformers
new projects submitted (C53, C54, C57) by A.I.E.E.—65:p21, Sept. '31.
- Underwriters' Laboratories standard issued.—64:p14, Aug. '31.
- Transmission shafting (B17-1927), discussed in *A.S.M.E. Transactions*, vol. 52, no. 11.—57:p13, Jan. '31.
- Transportation projects under ASA procedure reviewed.—60:p25, Apr. '31.

U

- Umbrella manufacturers using specifications for umbrella cloth.—63:p26, July '31.
- Underground systems reference book published by N.E.L.A.—66:p6, Oct. '31.
- Underwriters' Laboratories
inspection and certification plan established.—65:p32, Sept. '31.
standard for industrial control equipment and standard for transformers issued.—64:p11, Aug. '31.
- Union of Soviet Socialist Republics (Russia)
agricultural machinery standardization program.—68:p24, Dec. '31.
chart issued showing organization of national standardizing body.—61:p12, May '31.
standardization and elimination of waste program. D. G. Budnevich.—62:p7, June '31.

V

- Valves, flanged, ferrous (B16), Manufacturers Standardization Society of the Valve and Fittings Industry restricts scope.—60:p30, Apr. '31.
- Van Duzer, W. A.—Progress in standardization of highway purchases.—59:p22, Mar. '31.
- Varieties, excess, eliminated by standardization.—66:p22, Oct. '31.
- Varnish, spar, water-resisting, Federal specification, revision.—59:p15, Mar. '31.
- Voltage
low voltage hazards studied by American Society of Safety Engineers.—58:p13, Feb. '31.
new project (C56) submitted by A.I.E.E.—65:p22, Sept. '31.

W

- Walkway surfaces, safety code (A22)
early completion of code asked.—68:p7, Dec. '31.
need for code. C. W. Burke.—68:p6, Dec. '31.

- Washers, plain lock (B27), new committee member appointed.—57:p19, Jan. '31.
- Wehmhoff, B. L.
appointed to Standards Council.—58:p11, Feb. '31.
Research and standardization work of the Government Printing Office.—62:p3, June '31.
- Western Electric Company
standardization work discussed by H. S. Osborne.—65:p3, Sept. '31.
- Window cleaning
draft code sent to letter ballot in sectional committee (A39).—63:p25, July '31.
- Wire cloth, Fourdrinier, approved as Commercial Standard.—66:p32, Oct. '31.
- Wires and cables
impregnated paper-insulated, lead-covered, specifications issued by A.E.I.C.—58:p18, Feb. '31.
underground systems reference book published by N.E.L.A.—66:p6, Oct. '31.
- Wiring, United States needs standardization.—62:p6, June '31.
- Wisconsin electrical safety code to incorporate standard on ultimate fiber stresses of wood poles (O5a-1930).—58:p16, Feb. '31.
- Wood
Hayward, P. A.—*Wood-Lumber and Timber* (book), a review.—62:p12, June '31.
review of ASA projects.—61:p21, May '31.
- Wood poles
Colley, R. H., appointed new chairman of sectional committee (O5).—67:p39, Nov. '31.
- Jones, R. L.—Results of six years' work of the sectional committee on wood poles.—63:p19, July '31.
- lodge pole pine and Douglas fir poles to be included in work of committee (O5).—60:p32, Apr. '31.
- preferred numbers used in wood pole standards (O5).—61:p32, May '31.
- standards for chestnut, northern white cedar, western red cedar, and southern pine poles approved (O5b1-1931, O5b2-1931; O5c1-1931, O5c2-1931; O5d1-1931, O5d2-1931; O5e1-1931, O5e2-1931).—63:p21, July '31.
- ultimate fiber stresses (O5a-1930), standard incorporated in National Electrical Safety Code (C2-1927).—61:p20, May '31. Incorporated in Wisconsin electrical safety code.—58:p16, Feb. '31.
- Woodruff keys, keyslots, and cutters (B17f-1930), approved by ASA.—57:p27, Jan. '31. Same.—59:p8, Mar. '31.
- Wrenches, box, and socket, Detroit Edison Company sees need for standards.—60:p38, Apr. '31.

Z

- Zinc coating
iron and steel (G8), committee submits report.—62:p24, June '31.
research work conducted by A.S.T.M.—68:p31, Dec. '31.
- sheets (galvanized), standard approved by ASA (G8b1-1931).—63:p25, July '31.
- structural steel shapes, plates, bars, and their products (G8c-1931), standard approved by ASA.—57:p30, Jan. '31. (Correction.—58:p30, Feb. '31.)
